

CLIMATE CONTROL for CONSERVATORIES

**Is your conservatory too hot
in
summer!
too cold in
winter!**

Solve the
problem by fitting
the **allseasons**
climate control system

allseasons Climate Control uses the latest "Heat Pump" technology which provides heating at a third of the price of conventional electric heating and is also much cheaper than a gas central heating radiator

£295.00 Incl VAT

Full air conditioning system supplied with your conservatory and ready to install.

Stay cooler in the summer and warmer in the winter by adding our climate control upgrade to your new conservatory.

For just £295 our air conditioning unit provides automatic climate control maintaining the temperature inside your new conservatory whatever the weather outside.

Offer only available at time of placing your conservatory order and is subject to availability. We reserve the right to withdraw this offer at anytime.

Air conditioning units are provided on a supply only basis with full installation instructions provided. We recommend electrical connection is carried out by a professional electrician.
